-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 29 September 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

- 6) ☐ Other: \_\_\_\_\_

***Election/Restrictions***

This application contains claims 17-27 drawn to non-elected inventions. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-4, 7-10, 31, and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Nestell et al (US 6,000,814).

Nestell et al provide an apparatus including a polycarbonate polymer film or lens (24; col. 6, lines 14-17) comprising an ultra-high barrier coating(s) (27a; col. 6, lines 20-25 and col. 3, lines 45-52); and a fixture (28) comprising at least one inner member (see lead line area to 31) and at least one outer member (30), wherein said at least one inner member and said at least one outer member are configured to secure said film or lens therebetween (see Figs. 7 and 9).

With respect to one of the inner and outer members comprising a mask portion or aperture portion, Nestell et al provide each of the members with a masking portion. The area of both the inner and outer members in contact with the lens would effect a masking portion with the opposite side of each of the inner and outer members being an exposed portion.

Nestell et al provide for an intermediate layer (27c) defining an interface member disposed between the inner and outer members.

Art Unit: 1734

Both the inner and outer members have rounded or curved corners or ends as shown in Fig. 9 (see area about lead line of 27C and area left of lead line 27B).

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 5 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nestell et al (US 6,000,814).

Nestell et al provide an apparatus as mentioned above but is silent concerning the inner and outer members as well as the film comprising the same material or having the same physical (i.e., thermal) properties. However, it would have been obvious to one of ordinary skill in the art to make all of the members and film from the same material in the event that the members and film are heat processed to form a single integral element.

### ***Response to Arguments***

Applicants' arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1734

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura Edwards whose telephone number is (571) 272-1227. The examiner can normally be reached on Monday-Friday.
